Fishing with Cliff

Dubbed by us its creators, Fishing with Cliff is possibly the worst fishing show you will ever see, but it is also 100% genuine! No scripted shows on managed lakes, just real fishing in the Northwest for Salmon, Trout, Bass and whatever else we can find! Our fishing show is bad, but we know you will love watching it anyway!

Memorial Reefs

Posted in [Strange Stuff](#)

I found this post over at [Dvorak Uncensored](#) about how a company is now offering to put your cremated remains into a chunk of artificial reef. I guess if you are an environmentalist to the end it is the way you would want it!

[Eternal Reefs](#) is putting a new spin on the at-sea burial by offering an environmentally-friendly alternative to cremation and traditional cemetery burials. The company offers a way to have a memorial and help out the environment at the same time, by creating a memorial reef that contains the ashes of the deceased. The memorial reefs are known as "reef balls." They are constructed by mixing cremated remains with liquid concrete, which is put into mold in order to create the reef ball.

Guess it is better than paying to be embalmed and stuck in a box for eternity. "*Ashes to ashes, dust to reef?*" Still at \$2,500 to \$6,500 plus cremation costs, it is a pretty affordable way to be memorialized.
